Please note that, for all these exchanges, the EDI format and the transport mechanism are predefined and unique, except for the following:

- the E\_REL\_TRA and the E\_DEC\_DAT (it is only strongly recommended to use the EDIFACT format for these);
- the exchange of IE030, IE031, IE032 and IE913 can take place across CCN/CSI and the Inter(extra)net. For CCN/CSI, the EDIFACT format is to be used; for exchange across the Inter(Intra)net, both EDIFACT and XML formats are supported by the central reference tools;
- IE913 will always be in the same format (EDIFACT or XML) as the message they relate to.
